

# DAG-PNS-v1

Helal L, Ribeiro-Lucas R

2023-06-15

Hi there - this is the first version of our PNS 2019 project, did by Rafaela and myself.

Please note that variables as gray are for mediation analysis, inside the upstream variable. Confounders are marked in red, as standard of dagitty.net. This is a v0 for start discussion about our modeling.

Below is the DAG code for R - **dagitty** package and all files are deposited in [github.com/lhelal1/pns2019](https://github.com/lhelal1/pns2019).

Cheers!

---
